caring technology

nurse call systems

Network II nurse call was designed with both installers and end-users in mind.

This feature packed system is ideal for use by the Private Sector in care establishments and for NHS Developments; it has been developed and fine-tuned over the years to keep it at the forefront of technology.

Using a simple two-wire bus, installation couldn't be easier. Call points are wired in simple radials from the main control unit – or Hub as we call it. Indicator panels are wired on similar radials. For more detailed information refer to our installation and programming guide.

... there is no more cost effective way of upgrading a nurse call system!

The design of our equipment makes it the ideal choice when upgrading an old nurse call system. Our nurse call points need only two connections to be fully operational. The system can therefore 'sit-on' existing wiring – there is no more cost effective way to upgrade a nurse call system!

A full range of accessories is available including extension call leads, door monitoring equipment, bed-leaving sensors, radio paging and more. This makes it easy to design a system that fully meets the requirements of the client and registration authority.

| Date/Time | Event | Identification |
|----------------|---------|----------------------|
| 08/04/03 09:07 | RESET | 1ST FLOOR BEDROOM 12 |
| 08/04/03 09:05 | PRESENT | 1ST FLOOR BEDROOM 12 |
| 08/04/03 09:04 | RESET | SUN LOUNGE |
| 08/04/03 09:01 | PRESENT | SUN LOUNGE |
| 08/04/03 09:01 | CALL | 1ST FLOOR BEDROOM 12 |
| 08/04/03 08:59 | CRASH | SUN LOUNGE |

| 08/04/03 08:32 | PRESENT | BEDROOM 2 |
| 08/04/03 08:30 | VISIT | BEDROOM 2 |
| 08/04/03 08:29 | VISIT | BEDROOM 3 |

Our datastore software package is a useful tool allowing care providers to monitor events on the system. It is also a handy commissioning tool for engineers.

The sales team at SAS are there to assist with the planning and design of your system. Simply provide us with a set of building plans and we will design the system for you, if necessary site surveys can be arranged. We also offer full technical backup and a commissioning service, if required.

This brochure offers only a brief overview of the features our Network II nurse call system has to offer. Request a copy of our product guide and installation and programming guides for comprehensive details of our product range.

Request a copy of our product guide, giving up-to-date details on the full range of our products using contact details below. An installation and programming guide is also a useful tool when designing a system.
